

Important Information About the North Anna Power Station Alert and Notification System

Starting February 1, 2023, you will receive alerts on your cell phone.

Just like weather alerts and Amber Alerts.

The Commonwealth of Virginia and Dominion Energy are working together to change how you receive alerts in the unlikely event of an emergency at the North Anna Power Station. Starting February 1, 2023, you will begin receiving real-time alerts directly on your cell phone.

If there is an emergency at the North Anna Power Station, you will receive a message with information about the emergency and instructions on how to stay safe.

This cell phone alert system was developed by FEMA and will ensure our community is safe and you are informed.
